

OLIVE & PEARL STUDY GUIDE

THE PERFORMANCE

Olive & Pearl

Written & Directed by Mara McEwin Choreography by Emily Bunning Music by Anthony Rizzo Costumes & Puppets by Patti Gilstrap

For The Early Years

Olive & Pearl tells the story of a young girl, Olive, who is being raised by her Granny, Pearl. Centered on thematic elements of home, and what a home means, young audiences are invited into a cozy and gentle world, rich with sensory experiences. The story follows Olive throughout her day, as she is affectionately taken care of by her grandmother. Granny Pearl builds fires, warms tea, makes meals, has a comforting lap to tell stories on and safe arms to rock Olive to sleep. Throughout their day the characters play, go on an imaginary journey to the moon, sing songs, and dance. Imagery about home is placed throughout the performance; a mouse's hole in the living room, a fish in its' water bowl, and a fairy in its' tree. The moon, plays a significant role, as an unseen character. Home is not only the structure of one's house, but the place one longs for, like the magic of the glowing moon, to feel safety, love and warmth. Olive & Pearl is both a mirror and a window, for the very young child, into what is the meaning of home.

Magical, visual, stimulating, and oftentimes funny, **Olive & Pearl** is performed by two actors, who also represent the additional characters through handcrafted puppets: the moon, the robin, the mouse and the fish. Movement is woven throughout the piece, gently guiding the story, while incorporating the integral and familial connection between the characters. An original live music score, created and played by Anthony Rizzo delicately accompanies the performance underneath. The musical score combines inspired melodies of Bluegrass, Irish Fiddle, and traditional lullabies.

BEFORE SEEING THE PERFORMANCE

AGES 2-3

- □ Toddlers love learning about Home: Discuss What is Home, Where is Home, Who is In Their Home
- □ Have Your Toddler Draw Their Home & Their Family
- □ Discuss Grandparents. Draw pictures of grandmothers & grandfathers. If the child doesn't have a relationship with a grandparent, they can choose a person they know to be their grandparent.
- □ Talk about animals and their homes. For example; a snail carries his home, a chipmunk burrows in his home, a mouse oftentimes a hole/nest in the house, a fish has a bowl, a flower has a pot, a bird a nest. The list is endless.
- □ Ask your toddler to draw and describe to you these animals and their homes.
- □ Play a dance game: Turn on music and have your child move like a animal going into their home; slowly like a snail carrying his home, burrowing like a chipmunk, building a nest like a robin, a caterpillar in its cocoon.
- □ Read books about homes to your toddler.
- Olive & Pearl references the Moon. Begin discussing the moon, and it's simple phases with your toddler. Ask them what they think the moon is made out of: cheese, chalk, soap?
- □ Have them draw or paint a moon, and its phases, while begin introducing circles.
- □ Since the moon is round, what else is round? Go on a circle shape hunt throughout the classroom or your home.
- □ Create a moon dance, by using big circle shapes with different parts of your body. What are different ways you can make your arms into circles, body, legs, head, etc.
- □ Act Out Stories about Homes & the Moon: Three Little Pigs, Little Red Hen, Three Little Bears, Hey, Diddle, Diddle
- □ Make an art project based on the nursery rhyme **Hey, Diddle, Diddle;** using stars, cow & black paper.

AFTER SEEING THE PERFORMANCE

- 1. Who were the characters in **Olive & Pearl**? Who was the child, who was the adult?
- 2. Talk about what happened in the play.
- 3. What instrument was the musician in the show playing?
- 4. After seeing **Olive & Pearl**, discuss it with your class.

 Who was their favorite character and why? Did they notice which actors and dancers played more than one part? How did the actors' and or dancers' movements help make the puppets seem real?

SUGGESTED ACTIVITIES

- 1. (Age 3 & up) Have students create their own tales based on a unique home. You can have them sit in a circle and each make up a part to the story. It's okay if the story doesn't make sense; just encourage students to use their creativity.
- 2. (Ages 6 and up) Have children create their own story about a child & grown up and their home. They could create this together as a group or as individuals. They could write their stories down, tell the stories out loud, draw their stories or put on a play based on their stories.
- 3. (Ages 2 and up) Act out a story about the moon. You could choose a story like "The Little Red Hen" or the "Hey Diddle, Diddle" The teacher can narrate and choose students to be different characters. You can have many students play the same part if more than one wants to act out a role. This could be a long project or even a ten-minute project. Tell the story to the students and then have them act it out around the classroom.
- 4. (2 and up) Make a Moon Puppet with your class. You will need: Popsicle sticks, paper plates and glue. Glue or tie the pipeline on both ends of the large Popsicle sticks to attach for the handle. For older kids have them glue on googly eyes. Have your class make up a story about the moon. Talk about the phases of the moon.
