

Literature to Life® stage presentation of
I Am Not Your Perfect Mexican Daughter
Adapted and Directed by Ana Maria Jomolca
Performed by Elizabeth Raquel Ramirez
Based on the novel *I Am Not Your Perfect Mexican Daughter* by Erika Sánchez, © 2017
Produced in partnership with Freedom Reads (freedomreads.org)
TECHNICAL SHOW RIDER

Company Manager Contact:

Kelvin Grullon – 646.305.3848 – kelvin.g@literaturetolife.org

The following technical information rider is provided by Literature to Life to ensure the best performance possible. As is the nature of our programming, all Literature to Life productions are designed to be minimal in set, prop, sound, and lighting requirements, and therefore flexible based on specific theatre and crew capabilities.

Rehearsal: Literature to Life will require access to the performance space a minimum of two (2) hours prior to show time. In venues with nuanced lighting capabilities, an extra 30 minutes is required to review lightboard and lighting setups prior to the start of cue-to-cue tech rehearsal.

All technical staff for the performance should be present for the duration of the technical rehearsal.

The cue-to-cue technical rehearsal will last **approximately 60 minutes**.

Audio: We request three wireless handheld microphones be available:
One for Teaching Artist (T.A.), one for interactive audience participation during the pre- and post-show experience, and one as back-up.

In larger venues a mic runner in the audience is helpful.
(If wireless mics are unavailable, a wired handheld for T.A. may be used as a substitute.)

Artificial amplification is sometimes preferred in larger venues (200+ seats).
Please have two **lavalier microphones** available (one for Actor, one as back-up);
headset style lavs are preferred (i.e. countryman).

**NOTE: If amplification of actor is necessary, the goal is for gentle support and vocal clarity, but to maintain as natural a tone as possible. This support can also be achieved in some spaces through hanging microphones or floor microphones.*

**NOTE: If the venue has less than 250 seats, but the Presenter is aware of specific sound needs that prevent a strong solo performer from working without a microphone, please follow guidelines for larger venues.*

Sound: All pre-show & performance Sound Cues will be played via Qlab (or iTunes Playlist as backup) on the artist's laptop, which can be connected to the venue's speakers or sound board via auxiliary cord (**to be provided by the venue**). If requested, sound cues can be provided to the venue in advance.

Sound cues are detailed in the *CUE SHEET* (attached).

Lighting: There are three lighting looks to prepare.
Look A: Warm general wash – soft, smooth, lighter edges
Look B: Cool general wash – bright, cold/hard edges

If lighting looks are not possible, the minimum requirement is a simple lights ON/OFF switch in the performance space. Final judgment is at the discretion of the actor and production manager on site.

Crew Needs: In fully equipped venues –
one lightboard programmer/operator and,
one sound technician/operator to execute sound cues.

Teaching Artist will act as Stage Manager and call all light and sound cues.
If short staffed, T.A. can play sound cues - and call light cues with a lightboard operator.

Set Pieces: one standard stool,
one chair without arms

Staging: Stage must be at least 10' deep x 18' wide (considerations will be made for unusual requests). Intimacy with the audience is preferable and therefore seating layouts may be adjusted accordingly. There should be easy access from the stage to the audience. Where applicable, preference is for performing in front of the proscenium curtain with covered orchestra pit.

Stage Plot:

Please note: if available, Literature to Life requests a paper copy of the theater/light plot with stage dimensions and audience capacity, received no later than one week prior to performance.

Program Run Time:	Pre-Show:	15 minutes
	Performance Time:	60 minutes
	Post Show Discussion:	15 – 20 minutes
	Total Program Run:	90 – 95 minutes (1:30 hrs – 1:35 hrs)

**In the event of strict academic calendar needs, such as marking periods or bus schedules, the 'Program Run Time' can be tailored to accommodate time availability. We will work with Presenting Venue to optimize program run; the maximum amount of discussion time with students is always encouraged and preferred.*

Wardrobe & Props:

Actor will bring and place their own props on stage by the end of tech rehearsal, and before the house opens.
